Indicaciones didácticas

1. **Splash Screen**
   - Mostrar el logo de la app con un temporizador.
   - Transición automática hacia el Onboarding.
2. **Onboarding**
   - Carrusel de pantallas con imágenes y texto.
   - Indicadores de progreso y botón de “Comenzar”.
   - Al finalizar, redirigir a la pantalla principal.
3. **Pantalla principal**
   - Implementar **tema claro/oscuro** dinámico.
   - Mostrar una lista de elementos con **Hero animation** hacia detalle.
   - Usar **AnimatedContainer** para animar cambios de estilo.
   - Integrar una animación **Lottie** como elemento decorativo.

```

🎯 Resumen:

- **Splash Screen** → Identidad inicial.
- **Onboarding** → Guía introductoria con carrusel.
- **Tema claro/oscuro** → Adaptación visual automática.
- **Hero animation** → Transiciones fluidas entre lista y detalle.
- **AnimatedContainer** → Animaciones de estilo dinámico.
- **Lottie** → Animaciones vectoriales profesionales.
